

From Research Desk

21, August 2023

Equity Corner:

- Nifty 50 index:** The index opened on a negative note as indicated by weak global cues. During the opening hours; the index slipped further as selling pressure in HEROMOTOCO (-2.14%), TCS (-2.0%), HINDALCO (-1.81%) led the index take support at 19,250. As the session progressed; the index tried to bounce back as short covering was seen in RELIANCE (+0.74%) & AXISBANK (+0.69%). However; presence of multiple resistance on the upside resulted the session to end on a negative note with a loss of 55 (-0.28%) points
- Bank Nifty:** The banking index has been showing strength over the last few sessions. However; heavyweight counters such as HDFCBANK (-0.54%), KOTAKBANK (-0.92%) & ICICIBANK (-0.28%) are still underperforming as the index closed on a flattish note with a loss of 40 (-0.09%) points.
- Market breadth:** The market breadth was negative; indicating overall weakness in stock price during the session.
- Sectorial performance:** Majority of sectors were weak such as IT (-1.47%), REALTY (-0.73%) & PHARMA (-0.57%), exception being PSUBANK (+0.23%).
- Nifty Midcaps:** The midcaps closed on a negative note as selling in LICHSGFIN (-2.5%), LUPIN (-2.3%) and VOLTAS (-1.88%) led the index close down -0.21%.
- Advance/Decline Ratio:** Advance/Decline ratio at close for NSE stood at 780/1257 indicating a lower number of advancing stocks compared to declining ones.
- FII and DII Activity:** FII's were net sellers in cash segment of around Rs. 267 crores while DIIs bought around Rs. 339 crores.

Derivative corner:

- Nifty OI Put/Call ratio has come down from 1.06 to 1.00 levels.
- Options data:** The maximum Call OI is seen at 19,400 and 19,500 while maximum Put OI is seen at 19,300 and 19,200. This indicates that the market is expecting a trading range of 19,200 to 19,400 zones.
- FII Activity in Derivatives:** Marginal short covering is seen in index futures. On options buying front; there has been addition of more call buyers and on option writing front; net call-put writing is indicating more call writers. FII Long/Short ratio in index futures has gone up from 39% to 42% indicating short covering.

Take on Market: Buy Corrections, stay put on Longs.

- Earnings:** Q1FY24 earnings update by corporates have largely been in line with expectation. Pharmaceuticals, FMEG, FMCG, Cement, Automobiles, Auto-ancillary all delivered good set of numbers. Management commentary across sectors were largely bullish, having an expectation of high teen growth in FY'24; the only sore point being IT. Financials have been an all-round beat. Fundamentally, from long term perspective economy is building on strong demand traction.
- Market Outlook:** The current strategy is to buy on corrections and hold onto long positions. However, present volatility may extend to couple of weeks. Probability, of deep cuts on Nifty 50 index is high.
- Relative Outperformance:** The medium-term relative outperformance of Indian markets compared to global peers is likely to continue.

What's in the news !

▲ Positive ■ Neutral ▼ Negative

Jio Financial Services Listing: The market participants will focus on the index heavyweight Reliance Industries (RIL) as the much-awaited listing of Jio Financial Services (formerly known as Reliance Strategic Investments), the entity demerged from billionaire Mukesh Ambani-led Reliance, is set to be taking place on the exchanges, on August 21. After the spin-off last month, the financial services subsidiary of Reliance is valued at Rs 261.85 per share. Meanwhile, Jio Financial Services will continue to remain in FTSE Indices, and will be added to MSCI Global Standard Index on August 23.

The shares of Jio Financial Services are scheduled to be removed from both the Sensex and the Nifty 50 indexes three days following their initial listing. Jio Financial Services is slated to become a constituent of 18 other indices, including the Nifty 100, Nifty 200, and Nifty 500, as indicated by the NSE.

MPC Meeting Minutes: Market participants will also look for the minutes of the MPC's meeting concluded on August 10, which will be published on August 24. Experts feel the rate hike won't be seen, but the expected rate cut cycle is likely to be pushed into FY25 against the last quarter of FY24 earlier, especially after the Reserve Bank of India raised CPI inflation forecast for FY24 (to 5.4 percent from 5.1 percent earlier) given the spike in food prices. CPI inflation in July jumped to 7.44 percent, higher-than-expectations by street, from 4.87 percent in June.

Jackson Hole Symposium: Globally all eyes will be on the speech by Fed Chair Jerome Powell in the Jackson Hole economic policy symposium scheduled to be held between August 24-26. Powell will speak at the event, hosted by Kansas City Fed, on August 25. After 25 bps hike in fed funds rate in July, Powell already hinted for one more rate hike in upcoming policy meetings as the Fed is strongly committed to bringing inflation back down to its 2 percent goal and continues to take a data-dependent approach in determining the extent of additional policy firming that may be appropriate going ahead. The CPI inflation was at 3.2 percent and core CPI at 4.7 percent in July.

PNB Housing: PNB Housing Finance on August 19 announced the successful resolution and complete recovery of a corporate non-performing account worth Rs 784 crore. This account represented approximately 1.3% of the company's loan assets as of June 30, 2023. As of June 30, 2023, PNB Housing Finance reported a gross NPA of Rs 2,270 crore, which constituted 3.76% of its loan assets. The total loan asset of the company at that date amounted to Rs 60,395 crore.

GMM Pfudler: Pfudler Inc. (ultimately held by DBAG Fund VI, a private equity fund advised by Deutsche Beteiligungs AG 'DBAG') has sold 13.6% equity stake in GMM Pfudler Ltd ('Company') through bulk deals. 9.9% equity stake of the Company has been purchased by funds affiliated with ChrysCapital, a leading India-focused investment firm with US\$5.0 Bn in AUM. 3.7% equity stake of the Company has been purchased by other investors.

Pivot Table - NIFTY 50

Trading Guideline

- ❖ This model is based on the premise that the PIVOT is the most important price level that decides the intraday trend. Much like how the door or a window hangs by a hinge and sways in the wind, the intraday trend also hangs by this PIVOT LEVEL and swings because of the Demand supply, volatility and market sentiments prevailing in the market. Hence its importance in intraday trading.
- ❖ Wait for the market price to stabilize after opening the first 30 minutes of trading.
- ❖ Opening Price is considered around the close of the Previousday. Avoid BUYING if prices open abnormally high and avoid selling if prices open too low.
- ❖ If the market price is stable above the pivot level after 20-30 minutes of opening, then GO LONG and book profit near the resistant level (R1 & R2).
- ❖ If the market price is stable below the pivot level after 20-30 minutes of opening, then GO SHORT and book profit near the support level (S1 & S2)

Stop Loss

Since you are aware of the 'potential returns at the time of initiating an intraday trade (difference between the entry price and profit targets), you should set up an appropriate STOP LOSS around 1% above / below of the trade price or a level comfortable to you, to protect yourself if the market turns and goes against you.

Alternate Strategy

If you have already initiated a trade with clear-cut profit targets and a stop loss level, and find during the course of the trading day that the market turns and goes the other way and crosses the TREND LEVEL, then trade again: For instance, if your first trade was a LONG trade and the market price drops through the TREND LEVEL to lower price levels, then GO SHORT and if your first trade was a SHORT trade and the market price rises through the TREND LEVEL to higher price levels, then GO LONG.

S1, S2 are the immediate support levels.

R1, R2 are the immediate resistance levels.
